

Global Partner

**for
Clinical Research &
Drug Development Services**

Independent Indian CRO

Our Facilities

Clinical Facility 1 ← AHMEDABAD

Clinical Facility 2 ← VADODRA

Bioanalytical facility
Regulatory and stats Facility

Bioanalytical Facility 2 ← NAVI MUMBAI

Mumbai Clinic Facility 1 ←

Total Cumulative Area of Facilities - **1516 sq mtr area**

1st CRO to get the ANVISA approval and USFDA approval

Setting inhalation chambers for Respiratory products

Regulatory assurance

140+ Highest Regulatory Inspection track record by an Indian CRO

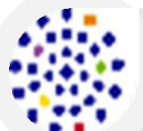

32x  **DCGI**
Recent Jan 2021

9x  **EMA**
Recent Oct 2020

46x  **USFDA**
Recent March & Sept 2025

6x  **NPRA**
Recent Nov 2024

22x  **ANVISA**
Recent Aug 2024

3x  **MHRA**
Recent Nov 2024

21x  **WHO**
Recent May 2024

Successful submissions to UKMHRA, TGA, Iraq MOH, GCC,ISP Chile, Kazakh MOH, Mexico, NMPA and more

700+

USFDA submissions

400+

EMA submissions

200+

ANVISA submissions

100+

WHO submissions

Accutest's Assurance

LEADERSHIP TEAM

D.M.Reddy

Chairman

Dr. Nirav Gandhi

CEO and President

P R Raman

CFO

Dr.Avdhoot Laud

Sr.V.P –CQA & Regulatory

Dr. NabaKumar Talukdar

VP Clinical Operations

Dr.Shailesh Sonar

Head Biologics

Dr. Vijay Shinde

Head -Bio-Analytical

Ravindra Gandham

VP - Business Development

Over 250 Trained and Experienced Personnel

Our Services

BA/BE studies

Healthy subjects and patients (studies) for generics and biosimilars, including FTF and 505 (b) (2)

Clinical Development Services (CDS)

Phase II to IV studies for small/ large molecules, Nutraceuticals

Phase II to V therapeutic equivalence, clinical end point

Phase II, III studies for small/large molecules, Biosimilars

Characterization
– Physicochemical
– Biological

Clinical comparability
– PK / PD studies
– Immunogenicity studies for Biosimilars

Statistical services

Stand alone department

In-house SAS 9.4 version

In-vivo and in-vitro stats analysis

Clinical data management
CDISC/ADaM submission

BA/BE Services

Clinical Accutest Capabilities

Capabilities	Specification	C P U 1	C P U 2	C P U 3	Total
Total Cumulative Area of Facilities	1 51 6 sq mtr area	-	-	-	-
No. of beds at Navi Mumbai		50 beds	30 beds	42 beds	122 Beds
No. of beds at Vadodara		60 beds	36 beds	42 beds	140 Beds
Volunteer pool	Male				48967+
	Female				8292+
	Post Meno				500+

Dedicated software to track volunteer movement

Clinical Trial management Software

(CTMS)

To check the volunteer history and additions to volunteer bank.

Online volunteer Information System

(OVIS): To ensure there is no cross participation across different CROs in past 90 days.

Clinical facility

Each CPU have separate dosing and sample collection area, access controlled sample separation area, recreational area, volunteer locker room, PI cabin and sample storage area with - 20° C & -70° C deep freezers equipped with 21 CFR compliant data logger.

Synchronised clocks all over facility.

Facilities Equipped with ICU's, trained medical and paramedical staff, Cardiac Ambulance and within 10 km radius of multi-specialty hospitals.

Clinical expertise

Expertise of handling complex designs

Single arm

Rivastigmine

Continuous monitoring

Donepezil patch

Long duration

Dose escalation for Long-acting recombinant growth hormone 5 months

Large sample size

Pegfilgrastim 300 volunteers

Long housing

Drospirenone

Long washout studies

Fingolimod 63 days, Linagliptin FCT 45 days

Expertise of handling complex studies

On body injectables

Pegfilgrastim

Patch studies

Donepezil

IV Infusion studies

Phytonadione, Diclofenac, Voriconazol

Inhalation studies

Fluticasone and Salmeterol

Gel

Nise gel, Dapsone gel

Bioanalytical Strength

Make	Model	Number	Sensitivity
AB Sciex	API 6500+	2	Low pg/mL to ng/mL
Waters	Xevo TQ-XS	2	Low pg/mL to ng/mL
AB Sciex	API 5500	12	High pg/mL to ng/mL
Waters	Xevo TQS	5	High pg/mL to ng/mL
AB Sciex	API 4500	2	ng/mL to µg/mL
Waters	Xevo TQ	1	ng/mL to µg/mL
AB Sciex	API 4000	2	ng/mL to µg/mL
Thermo	ICP-MS	1	Trace level elemental analysis (eg. Potassium, Bismuth, Strontium etc)
Thermo	ICP-OES	1	Trace level elemental analysis (eg. Potassium, Bismuth, Strontium etc)

Cell Based Assay

Well Equipped State Of The Art Lab

NGC Chromatography

- Downstream: Protein purification- suitable for both analytical and preparative scale-up
- Biomolecule purification- research, process- development, and laboratory-scale levels

Cell Biology

- Biological Characterization
- Cell Based Functional -Biosimilarity, NAb Assay
- Preclinical Research-MoA-Exploratory Studies
- Upstream: Transfection, Protein Expression

ELISA Platform

- Pharmacokinetics/Pharmacodynamics
- Immunogenicity-Screening, Confirmatory & Titer
- Biomarkers, Cytokines etc
- Impurity: Host Cell Protein, Residual Enzymes

Molecular Biology: PCR/qPCR

- Gene Expression Analysis
- Impurity: Host Cell DNA, NA Contamination from source animal
- Cone Optimization, Verification

Flow Cytometry

- PD parameters-Hematology, PBMCs related
- Cell Signaling, Immunology & Oncology
- Preclinical Research-MoA-Exploratory Studies

Nexera X2 UPLC/HPLC System

- Peptide Mapping and Amino Acid Analysis
- Comparison of glycan profiles in MAbs
- Impurity Profiling, Stress Stability Studies

LC-MS AB Sciex / Triple TOF 5600

- Intact Mass, Peptide Mapping, di-sulfide bonding
- N and C terminal sequencing
- PTM-glycosylation, phosphorylation and acylation

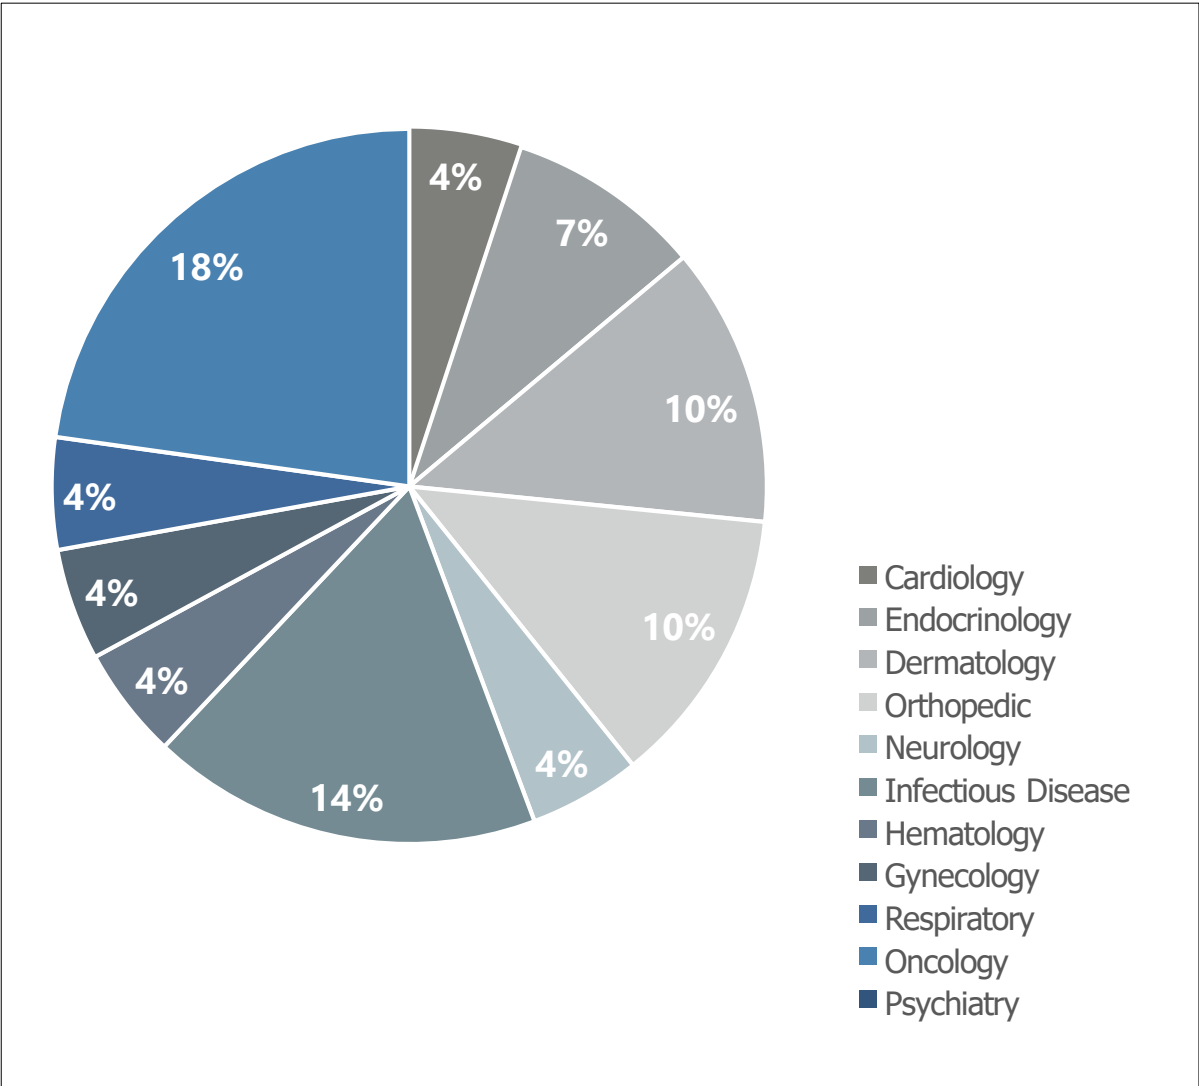

Clinical Development Services

Expertise in conducting and managing **Phase II – IV clinical trials** for domestic and global clients.

Clinical Trial Experience

Study Type	Indications	Number
Phase II	Gynecology, Infectious diseases	02
Phase III	Dermatology, Psychiatry	02
Phase IV	Cardiology, Infectious diseases, Oncology, Neurology, Respiratory	06
PK	Orthopedic, Psychiatry, Oncology, Hematology	13
Nutraceuticals	Glycemic Index	02
Diagnostic	Infectious diseases	01
Clinical Endpoint	Dermatology	02

Database of Investigation

Gastroenterology (98)

Geriatrics (44)

Neurology (98)

Psychiatry (121)

Urology (94)

Dermatology (110)

Respiratory (92)

Cardiology (171)

Gynecology (93)

Oncology (131)

Endocrinology (109)

Orthopedics (100)

Ophthalmology (111)

Pediatrics (120)

Well experienced Principal Investigators with decades of experience in Clinical trial both patient and healthy volunteers.

Patient based PK studies US FDA Inspection History

Therapeutic area	Subjects	Site	Dates of Inspection	Inspection Outcome
Psychiatry	28	Ahmedabad	09 -12 Jul 2012	No 483
Psychiatry	14	Ahmedabad	16 -19 Jul 2012	No 483
Psychiatry	29	Surat	09 Sep 2015	No 483
Psychiatry	29	Junagadh	30 Mar- 03 Apr 2015	No 483
Psychiatry	21	Ahmedabad	28 May - 05 Jun 2018	No 483
Oncology	07	Vijayawada	15 - 19 October 2018	No 483
Oncology	03	Surat	10- 12 December 2018	No 483
Oncology	03	Vadodara	07 - 10 January 2019	No 483
Oncology	06	Bengaluru	20 - 22 January 2020	No 483
Oncology	04	Tamil Nadu	26 -28 February 2020	No 483
Psychiatry (NPRA)	22	Junagadh	28 - 31 Mar 2023	Successfully closed

Biostatistics & Data Management Services, RWE Studies
